

## 2012-2013 Program Definitions and Terms of Reimbursement for Mountain Pine Beetle Control Treatments

**Cut/Chunk** - Cutting the trunk (to a 4 inch diameter top) into pieces 24 inches or less in length and scattering the pieces—the pieces cannot be piled.

**Cut/Peel** - Cutting the tree down and peeling all bark from the trunk (to a 4 inch diameter top) of the tree.

**Cut /Wrap (Solar Treatment)** – Cutting the trunk (to a 4 inch diameter top) into pieces 4 feet or less in length, placing the logs no more than 2 rows high, wrapping the pile with not less than 6-mill plastic sheeting, and piling enough soil on the tarp to make it as air tight as possible. The plastic will need to stay in place until September of 2013.

**Cut/Chip** - Chipping of the trunk (to a 4 inch diameter top) and scattering the chips to a depth of 3 inches or less.

**Cut/Remove** – Cutting the tree and removing all trunk material greater than 4 inches in diameter.

**Salvage** – Cutting the tree and removing all commercial trunk material to sawmill. Trunk material greater than 4 inches in diameter not taken out of the woods will be bucked into pieces 2 feet or less in length.

**\*All tree tops and branches must be treated to meet the State Slash Law: lopped and scattered to a depth not greater than 18 inches from the ground or piled and burned.**

**\*Failure to treat all of the infested trees marked may disqualify you from future mountain pine beetle program assistance.**

Treatment	Cost Share (\$20,000/landowner or group maximum)	Deadlines
Cut/Chunk – Landowner (20 tree minimum)	\$10.50 per tree	No reimbursement for trees not treated by 3/01/2013
Cut/Chunk – Contractor (20 tree minimum)	75% of total cost not to exceed \$13.50 per tree	No reimbursement for trees not treated by 3/01/2013
Cut/Peel (20 tree minimum)	75% of total cost not to exceed \$25.50 per tree	No reimbursement for trees not treated by 5/01/2013
Cut/Wrap (Solar Treatment) (20 tree minimum)	75% of total cost not to exceed \$25.50 per tree	No reimbursement for trees not treated by 5/01/2013
Cut/Chip (20 tree minimum)	75% of total cost not to exceed \$25.50 per tree	No reimbursement for trees not treated by 5/01/2013
Cut/Remove (20 tree minimum)	75% of total cost not to exceed \$13.50 per tree	No reimbursement for trees not treated by 6/01/2013
Salvage (1 load minimum)	75% of incurred cost (log value minus logging cost) not to exceed \$507.00 per load	No reimbursement for trees not treated by 6/01/2013
